Education

ICFAI University, Hyderabad

B.Tech in Data Science and Artificial Intelligence, CGPA: 8.30

July 2022 – May 2026

Hyderabad, India

Deeksha Junior College, Hyderabad

Intermediate, Percentage: 97.5%

Jun 2020 – May 2022

Hyderabad, India

Maharshi Vidya Mandir, Hyderabad

10th Graduation (CBSE), CGPA: 8.6

May 2008 – Mar 2020

Hyderabad, India

Work Experience

National Informatics Centre (NIC)

Jan 2026 – Present

Software Developer Intern

Hybrid

- Integrated a standalone **QPR Django application** into the unified Rajbhasha Portal, resolving authentication, session, routing, and migration conflicts using **OOP principles**.
- Automated profile data entry for **100+ NIC Hyderabad employees** via an Employee Profile module with **master-table autofill** and a **5-stage HOD/Admin approval workflow**.
- Built a **searchable, paginated Employee Master module** with status filters, reactivation, and deletion workflows for **100+ employee records**.
- Developed a **bilingual (Hindi/English) Event Card system** with image upload and dynamic gallery rendering using **Django, Bootstrap, and JavaScript Fetch/AJAX**.
- Strengthened security by remediating vulnerabilities from **whitebox and blackbox penetration testing**, supporting a presentation to NIC Delhi officials for **nationwide rollout**.

Skillbanc

Jun 2024 – Jul 2024

Software Engineer Intern

Remote

- Engineered and shipped a **Flutter Android learning app** (Grades 1–10) with personalised lessons and interactive quizzes — achieving **500+ downloads** on Google Play Store.
- Integrated secure authentication and personalized learning paths within a small **Agile** team, incorporating direct stakeholder feedback over a 2-month sprint.

Projects

Automated Business Analytics Platform | *Python, DistilBERT, spaCy, Pandas, Power BI* | GitHub

- Cleaned and standardised a **100,000+ record Amazon review dataset**, eliminating duplicates and noise for downstream NLP models.
- Automated **sentiment, entity, and trend extraction** using **DistilBERT and spaCy** pipelines to generate actionable insights from 100K+ text records.
- Designed automated visual dashboards for review trends using **Power BI**, enabling stakeholders to track sentiment shifts over time.

Technical Skills

Programming Languages: Python, Java, C, SQL

Backend: Python Django, ORM, Authentication & Session Management, RBAC, Server-side Views

Frontend: HTML, CSS, Bootstrap, JavaScript, AJAX / Fetch API

ML / NLP: scikit-learn, Transformers (DistilBERT), spaCy, NumPy, Pandas, Matplotlib

Mobile: Flutter (Dart), Android Studio

Tools: Git, GitHub, Power BI, Manim, MySQL

Practices: OOP, Agile/Scrum, Debugging

Certifications

- AWS Cloud Practitioner Essentials, Microsoft Azure Fundamentals (AZ-900), Gen AI Study Jam 2024 – Google Developer Groups (GDG), Data Processing and Visualization – SSC NASSCOM, Exploratory Data Analysis – SSC NASSCOM, Acquiring Data – SSC NASSCOM
