Objective

Ds & Ai undergraduate with hands-on experience in Django-based web application development, RESTful API design, and structured database modeling. Built and integrated scalable role-based systems with authentication workflows and real-time data handling. Seeking a Software Development Engineer role to apply strong programming fundamentals and contribute to enterprise-grade software solutions.

Work Experience

Skillbanc

Jun 2024 – Jul 2024

Software Engineer Intern

Remote

- Developed and launched the **Skillbanc Academy Android App** (Grades 1–10) using **Flutter**
- Integrated personalized learning, animated lessons (**Manim**), Interactive quizzes, and secure authentication.
- Collaborated remotely in an agile team with the CEO, implementing continuous feedback
- Enhanced math learning accessibility and engagement for school students.

National Informatics Centre (NIC)

Jan 2026 – Present

Software Developer Intern

Hybrid

- Worked on the development and integration of the **Rajbhasha Digital Reporting Portal** using **Django, Python, and REST APIs**.
- Integrated an independently developed **QPR (Quarterly Progress Report) module** into the main application, unifying authentication, session management, and database models.
- Refactored multi-app architecture into a **single unified Django application**, resolving migration conflicts and model relationship issues.
- Implemented **Role-Based Access Control (RBAC)** for Admin, HOD, and User with approval workflows and dashboard-level access restrictions.
- Developed and tested **RESTful API endpoints** for JSON-based form submission, draft saving, and dynamic record retrieval.
- Debugged production-level issues involving URL routing, CSRF handling, authentication, database migrations, and session role inconsistencies.
- Used Git for version control and collaborated in team discussions to finalize integration architecture.

Education

ICFAI University, Hyderabad

July 2022 – May 2026

B.Tech in Data Science and Artificial Intelligence, CGPA: 8.29

Hyderabad, India

Deeksha Junior College, Hyderabad

Jun 2020 – May 2022

Intermediate, Percentage: 97.5%

Hyderabad, India

Maharshi Vidya Mandir, Hyderabad

May 2008 – Mar 2020

10th Graduation (CBSE), CGPA: 8.6

Hyderabad, India

Projects

Rajbhasha Digital Reporting System | *Django, Python, REST APIs, JavaScript, Bootstrap, SQLite*

- Designed and developed a dynamic **Employee Form Management System** with structured validation and ORM-based database persistence.
- Built responsive frontend components using **HTML, CSS, Bootstrap, and JavaScript**, ensuring consistent UI across dashboards.
- Developed backend APIs for structured JSON handling and integrated frontend form workflows with server-side validation.
- Implemented approval-based workflow logic with draft and submit states, edit permissions, and request-based modification system.
- Handled database schema migration, model integration, and user-profile synchronization during application merging.

Automated Business Analytics Platform | *Python, NLP, DistilBERT, Power BI* | GitHub

- Collected and refined **100K+ Amazon food reviews**, handling **missing values, duplicates, and noisy data** using Pandas for high-quality analytics.
- Automated **sentiment, entity, and trend extraction** with **Power BI** visualizations.
- Integrated predictive **NLP models (DistilBERT, spaCy)** to generate actionable insights from 100K+ text records.
- Designed automated visual dashboards for review trends using Power BI, supporting decision-making.

Skillbanc Academy App | *Flutter, Android Studio* | Play Store

- Developed and deployed an Android app enabling class-wise video streaming with smooth UI
- Achieved 1000+ downloads and positive feedback on Google Play Store

Certifications

- Cloud Practitioner Essentials - (AWS)
- Microsoft Azure Fundamentals(AZ-909)
- Gen AI Study Jam 2024 – Google Developer Groups (GDG)
- Data Processing and Visualization (SSC NASSCOM)
- Exploratory Data Analysis (SSC NASSCOM)
- Acquiring Data (SSC NASSCOM)

Technical Skills

Programming Languages: Python, Java, C

Tools & Frameworks: Git, Flutter, Power BI, Manim, MySQL

Libraries: NumPy, Pandas, scikit-learn, spaCy, Transformers, Matplotlib

Concepts: Data Structures & Algorithms, OOP, Operating Systems, Computer Networks

Domains: Software Engineering, Machine Learning

Soft Skills

Problem-Solving, Team Management, Collaboration, Adaptability, Time Management , Critical Thinking
